JUPITOL VI IMPROVER

Product Category	Lube Additive
Serial No	014
Date	01/04/2003

Jupitol VI Improver, is used as an effective ingredient in multigrade engine oils. It's a polymer solubilised in SAE -10 base oil having the shear stability index between 33 to 35. As this product is processed in an inert atmosphere and further treated with special thermally stable anti-oxidant so as to provide an enhanced long drain period in multi grade engine oil blends. This special property of Jupitol VI Improver blended in the engine oil as per the recommended dosage would provide the customer extra mileage by way of improved drain period of the Engine Oil
